Community Update - ADOT

UPDATE

Preliminary work will begin on October 26 with surveying and initial field operations

Active construction will begin November 9

Construction is expected to be completed by December 2026

I-19: Duval Mine Road Interchange Improvements Project

The Arizona Department of Transportation (ADOT) will begin a project in Fall 2026 to improve the Duval Mine Road bridge over I-19 in Sahuarita. This project is expected to be completed in Winter 2026. This project will improve the roadway by creating a smoother driving surface on the east end of the Duval Mine Road bridge.

Project Elements:

- Making repairs to the roadway surface on both sides of the Duval Mine Road bridge
- Removing and replacing damaged sections of concrete curb and drainage features within the project
- Repairing damaged sidewalks and sidewalk ramps
- Adjusting uneven walkway pavers to create a smoother surface

What to Expect:

- Traffic control devices will guide motorists through the construction area
- Construction work is tentatively scheduled from 8PM-5AM (nighttime work) Monday through Friday
- ADOT will provide advance notice of restrictions and closures to email subscribers
